

This **FX Robot** is designed for trading on **EURUSD**, **GBPUSD**, **USDCHF** and **USDJPY** currency pairs. The minimum balance requirement in the terminal should be \$1000. That means if you are not able to invest \$1000, you can open cent account with the investment of as little as \$10 or more.

Forex Diamond v4.0 – Three Battle Tested Trading Strategies

- **Signal Strategy #1: Secure After-Retracement** – Forex Diamond watches the market looking for strong market impulses. Once discovered, the Expert Advisor dynamically sets the best trading parameters and executes the trade.
- **Signal Strategy #2: Secure Countertrend** – When the market signals a potential reverse, Forex Diamond immediately adjusts your trading position to exploit the reversal. The Secure Countertrend strategy allows you to profit in special market conditions reliably pocketing pips while other EA's stall waiting for optimization.
- **Signal Strategy #3: Aggressive Countertrend Scalping** – Forex Diamond uses its high-frequency trades and spread protection to execute short-term scalping trades.
